

# WP-LABS

Social Media Profile Intelligence System

**WP-LABS is an Open-Source Intelligence (OSINT) tool.** WP-LABS can help you to gathering and connecting information to build a link analysis. WP-LABS was created for law enforcement organizations, private detectives, investigative journalists, ethical hackers and other professionals.

# WP-LABS Services

## News Monitoring

We made the news monitoring system to find out the latest issue and known about the negative or positive opinion from the news portal.

## Telegram Monitoring

We made the platform to monitor telegram groups to help you analyze the conversation in the groups and serve it to clean data.

## Whatsapp & Instagram Blaster

The most effective digital campaign tool you will ever need. Start broadcasting your content massively and effectively.

## Domain Toolkit

This service can help you to find out information about registrar from the domain of your target.

## Phone Spam Check

This service can help you to identify the target number as a spammer before or not.

## Leaked Data

We have collected many breach data from the internet to make a database to help you search and affiliate the account.
